

EDWIN MUTEMI CHABARI

ABOUT ME

I'm a knowledgeable Computer Science final year student who is enthusiastic in tech. Through my four-year course, I have been equipped with quality web development skills, data analysis, mobile development, UI/UX design techniques to satisfy all customers and meet their preferred deadlines in time. I'm adept at working independently with minimal or no supervision with the aim of completing my projects and customer needs. Additionally, I am able to convey simple to complex technological theories and concepts in a clear and concise manner on a timely basis.

EXPERIENCE

Throughout my university course study, I have gained experience from school and personal projects as well as our internal attachment in the following areas:

- Developed and honed creative writing and content creation skills.
- Provided high-quality data analysis services.
- Worked collaboratively with various clients and students to meet their content needs.
- Utilized adaptability and teamwork in dynamic academic environments.
